# AIR

Hot air has never been this beautiful before

We have developed a completely new sauna heater to meet modern demands for comfort, cost-effectiveness and aesthetics. Air features a substantial stone compartment that was inspired by age-old sauna traditions and enhances the overall beauty of its design. Tylö Air brings you a more contemporary, comfortable and soothing experience.

You can purchase your Air heater from our online shop or from one of our premium dealers. Visit us at [www.tylo.com](http://www.tylo.com)
